

BIODIVERSITY

Student/Team Worksheet | Grades K-2 | Post-Action Data-Defining the Inventory Site

NAME/TEAM: _____

1. After identifying the investigation areas, mark all the boxes that describe the land types found within the investigation area.

concrete asphalt bare soil
 trees grass rocky/pebbles
 garden stream/river
 pond containers on concrete/asphalt

2. Did land cover types change in the inventory site from the baseline audit to the post-action audit? Explain using words or pictures.
